

FOR IMMEDIATE RELEASE

## Livingston & Haven to Host Technical Trade Show

*Livingston & Haven will host the 2007 Innovation Fair presenting the newest products and technology for industrial managers and engineers.*

Charlotte, NC – March 20, 2007 – Livingston & Haven, an industrial technology provider, will host the annual Innovation Fair on April 24, 2007 at the Speedway Club at Lowe's Motor Speedway in Concord, N.C. The show will take place from 8:30 am until 3:30 pm with a free lunch provided to all attendees at 11:30.

Over 30 of the world's leading manufacturers will be showcasing their latest products and technology. The technology to be displayed includes Mitsubishi's Robotics line, innovative Blue Tooth Wireless Solutions from Phoenix Contact and more. Industry specialists will be assisting industrial managers and engineers in learning how to utilize the various technologies to improve their business.

Attendees will also learn how to increase efficiency and productivity in their own companies through five training seminars offered throughout the show. These productivity enhancement seminars will provide information on robotic and disruptive technologies, magnetic filtration, original equipment efficiency and lean manufacturing.

Over 50 participants will have the chance to ride around the race track in the Richard Petty Ride-Along Experience. Livingston & Haven's vendors will be sponsoring free tickets to be given away and enjoyed the day of the show. Go to [www.lhtech.com/fair](http://www.lhtech.com/fair) and register early to be entered into the drawing.

Admission to the fair is free and the first 50 people through the door will receive a Livingston & Haven 60<sup>th</sup> anniversary commemorative coin.

Established in 1947, Livingston & Haven is the leading industrial technology provider in the Southeast. The company specializes in providing solutions in the automation, hydraulic, pneumatic, lubrication and connector industries. Headquartered in Charlotte, N.C., L&H utilizes a collaboration of engineers and industry focused specialists to provide innovative solutions for manufacturers. L&H also offers a variety of services including: engineering, installations, service and repairs, a training institute and complete online account management.
